

# LEAP

Life Enrichment Activity Program

## Activity Tip

### Physical Distancing Activity

## Doorway BINGO

### Materials:

- Printed large print BINGO cards like the free ones available here:  
[www.activityconnection.com/bingo-press/](http://www.activityconnection.com/bingo-press/)
- Markers to mark the cards during play
- Trays if available, or a book/magazine to use as something hard underneath the BINGO sheets.

### Instructions:

Doorway BINGO is played by each resident hallway. Residents sit in their doorway to engage and enjoy the game with their neighbors, just like they would if they were all seated in the same room!

With residents physically distanced in doorways, a BINGO caller will start the game, taking extra time to make sure everyone can hear well. To up the ante, prizes can be given to winners or you can pass out tickets/tokens for a raffle!

You will simply recycle the used BINGO cards at the end of the game and sanitize the markers if you are collecting them at the end.
